

# VIDEO SURVEILLANCE

As system integrators, Livewire can provide the cabling infrastructure and install a full range of cameras, enclosures, network video recorders and other video security products. Our skilled installation team is backed by Vicon, a tier one service provider with world wide presence. This dealership has allowed Livewire to compete in offering usually limited to much larger organizations. As a proud perveyor of the Vicon product line and other 3rd party solutions Livewire is capable of delivering the following suite to services:

## Access Control Systems

With S2 Netbox, Livewire is able to deliver a powerful integrated security management system in a solide state network appliance. S2 products are powerful, scallable and affordable web based access control systems that can seamlessly integrate into existing video security solutions of other integrators.

## CCTV and IP Video Surveillance

With integrators like Panasonic, Axis, Vicon and Sony, Livewire can deliver the most sophisticated IP based video surveillance available. Whether you are looking for a video surveillance solution to secure the safety of people and places, or to remotely monitor property and facilities, Livewire can engineer and install the right solution for your evolving needs.
